Fordeling af mål og skud:

Tekn. Fejl

Assist

 = FEJLAFLEVERING

 = FEJLAFLEVERING

 = 2 MIN  = TEKNISKE FEJL

The figure consists of two bar charts, one for the SAH group and one for the NSH group, comparing 100 items. The y-axis is labeled 'Mål-diff.' and ranges from -6 to +6. The legend indicates that red bars represent differences of 2 minutes or more, blue dots represent technical errors, and orange bars represent positive differences, while green bars represent negative differences.

SAH Group: The chart shows a mix of positive and negative differences. Positive differences (orange bars) are prominent in the first 50 items, while negative differences (green bars) are more frequent in the second 50 items. Technical errors (blue dots) are scattered throughout. Red bars are visible at the top of the chart, indicating differences of 2 minutes or more.

NSH Group: The chart shows a mix of positive and negative differences. Negative differences (green bars) are prominent in the first 50 items, while positive differences (orange bars) are more frequent in the second 50 items. Technical errors (blue dots) are scattered throughout. Red bars are visible at the bottom of the chart, indicating differences of 2 minutes or more.
